**Technical data****Butt welder mod. PT – 5**

Mobile semi-automatic butt welder. Three-phase power supply. Equipment complete with accessories and ready for use.

**Technical data:**

- Diameter of steel bars to be welded: min. 10, max. 22 mm
- Nominal power: 50 KVA
- Voltage: 380 V - 50 Hz
- Auxiliary circuit: 24 V - 50 Hz
- Circuit breaker for main and auxiliary transformer
- Pneumatic cylinders for steel bars locking
- Control pneumatic solenoid valves
- Pressure switch
- Adjustable oil nebulizer
- Feed line disconnecting switch
- Closed circuit cooling system for electrodes
- Heat exchanger
- Supporting structure with 4 wheels, 2 of them swiveling type
- Weight: 350 Kg
- Dimensions 600 x 1000 x 1650 mm
